

PLAY OFF INFORMATION

SEMI FINALS

If your team is in the Semi Finals:

This game can end in a tie.

1st Place vs 8th Place, 2nd Place vs 7th Place, 3rd Place vs 6th Place, & 4th Place vs 5th Place

If, (for example): The team that is in 1st place before the game has 16 points and loses in the semifinals to the 8th place team, the 1st place team now has 17 points.

They are probably still in 1st or 2nd place because of the total point(s) they have earned.

Therefore, they will play the Final game as 1st or 2nd.

The team that was in 8th place, whom have now won in the semifinal now has 9 points (in theory), might move up to 6th place, because of the total points algorithm. That team will then/now play the 5th place team in the Finals.

FINALS

If your team is in the Finals: (Even if you did not play a semifinal game and you went directly to the Finals),

THE FINALS WILL BE BASED ON THE TOTAL POINTS.

1st place vs 2nd place, 3rd place vs 4th place, 5th place vs 6th place, and 7th place vs 8th place

This game must have a winner.

If the game is tied at the end of regulation play, we go directly to KICKS FROM THE MARK.

As per: IFAB (The International Football Association Board) The rule governing FIFA

5 V 5 (only the players on the field at the end of regulation time can participate in those kicks).

If one team is short and only has 9 players, the opposing team will only need to have 9 players take part in the shooting. That is if it goes that far (Reduce to Equate).
